Employment History

02/2018-03/2024

Barclays UK, London

Customer care/analyst

- I segmented my day into specific time blocks for client meetings, administrative tasks, and research creating more space in my diary which increased customer satisfaction by 30%.
- Maintain consistent communication with clients gathering requirements for efficient delivery.
- Analysed defects in the app and implemented changes to increase efficiency of customer journey.
- Build strong customer relationships based on trust and reliability.
- actively listening to the client's concerns and financial goals.
- I collaborated closely with the mortgage advisors and achieved an increase in mortgage sales by 15%.
- Virtually coached customers with digital banking through the pandemic.
- Able to diagnose mobile banking error codes through my own learning on software development

07/2014-01/2018

Vodafone UK, London

Sales/Tech advisor

- I quickly assessed customer needs upon their arrival, prioritising those requiring immediate assistance.
- guided customers through troubleshooting steps, explaining each action clearly and patiently.
- providing customers with a detailed comparison table outlining the key features, costs, and benefits of the shortlisted options verbally and through email.
- Actively collaborating with the team by sharing knowledge and providing extra support during new product launches.
- Adapted my focus and body language to the needs of different customers with different goals.
- Able to diagnose issues with products and services for customers through experience.

07/2005-09/2010
Wilkinsons, London
Cashier

- Accurately processed customer transactions, including handling cash, credit cards, and returns.
- Provided excellent customer service by addressing inquiries, resolving issues, and building rapport.
- Maintained a clean and organised checkout area and prioritised busier times over lunch to help support colleagues.
- Adhered to cash handling procedures and balanced registers daily.
- Operated point-of-sale systems efficiently.
- Contributed to a positive team environment.

Interests and Achievements

Computing: programming with JavaScript and creating web apps in my spare time has enabled me to understand technical faults and has enabled me to proficiently help family and friends with IT challenges. I have created various web apps such as calculators, games and websites which can all be found on my Github account.

Hobbies: I participate in football over the weekends and go to the gym regularly?
